

COMITÉ EURO-INTERNATIONAL DU BÉTON

BULLETIN D'INFORMATION
N° 132 bis

AICAP - CEB Symposium

Rome, Mai 1979

STRUCTURES EN BETON SOUS ACTIONS SISMIQUES
STRUCTURAL CONCRETE UNDER SEISMIC ACTIONS

Volume 3 - Technical Papers
Contributions techniques

Avril 1979

SECRETARIAT PERMANENT: 6, RUE LAURISTON - F 75116 PARIS

UNDER THE PATRONAGE
OF THE MINISTRY OF PUBLIC WORKS OF ITALY

SOUS LE PATRONAGE
DU MINISTERE ITALIEN DES TRAVAUX PUBLICS

COPATRONAGES:

(A.C.I.) American Concrete Institute
(E.A.E.E.) European Association for Earthquake Engineering
(F.I.P.) Fédération Internationale de la Précontrainte
(I.A.E.E.) International Association for Earthquake Engineering

ORGANIZING COMMITTEE
COMITE D'ORGANISATION

Carlo CESTELLI GUIDI	President of A.I.C.A.P. Président de l'A.I.C.A.P.
Julio FERRY BORGES	President of C.E.B. Président du C.E.B.
Yves SAILLARD	Deputy President of C.E.B. Président Délégué du C.E.B.
Antonino GIUFFRE'	Professor, University of Rome Professeur à l'Université de Rome
Marco MENEGOTTO	Professor, University of Rome Professeur à l'Université de Rome
Paolo Emilio PINTO	Professor, University of Rome Professeur à l'Université de Rome

INDEX

Volume 3

Technical Papers

Contributions Techniques

Theme III

1° Non-linear analysis of reinforced concrete shear walls L. CEDOLIN, A. MIGLIACCI, S. LEVATI	Page	7
2° Low cycle behaviour and strength of precast connections A. ASWAD		19
3° Energy dissipation in panelized buildings using limited-slip bolted joints A.S. PALL, C. MARSH		27

Theme IV

1° Study on hysteretic behaviour of statically indeterminate prestressed concrete frame structure subjected to reversed cyclic lateral load H. MUGURUMA		37
2° Waffle flat plate-column connections under alternating loads R. MELI, M. RODRIGUEZ		45
3° The seismic analysis, theoretical and experimental, of the joints of prestressed concrete frames A. NEGOITA, V. HOBJILA		53
4° Le comportement sismique "in situ" des hauts bâtiments avec un noyau central et des portiques périphériques A. NEGOITA, I. OLARIU, I. NEGOITA		63
5° Observed seismic behaviour of various concrete structures Y. OZAKA, M. IZUMI, T. SHIGA		71
6° The Myagi-Ken-Okii, Japan, earthquake of June 12, 1978: effects on reinforced concrete structures J. A. BLUME, P. I. YANEV		79
7° An economic analysis for retrofitting a reinforced concrete building A. MONSEY		87
8° A survey on the collaps of a three-storey reinforced concrete framed structure during the Tangshan earthquakes W. LIAN, D. GUO-YONG		95
